

VIVATERRA Care Instructions: Organic Culinary Herb Wreath

A tasteful wreath in every respect, its spray of culinary herbs adds savory fragrance to your kitchen and can be clipped off for use at will. Crafted from organic marjoram, dill, thyme, sage, lavender, anise, cinnamon sticks, and yarrow, our beguiling wreath is accented with chili peppers. Grown and assembled in USA.

Care Instructions:

Our Organic Culinary Herb Wreath is made with dry herbs, except for fresh bay. The fresh bay will continue to dry naturally on the wreath once it arrives in your home. It may curl and turn a lighter shade of green.

To prolong its freshness, the wreath should be kept away from direct heat sources and sunlight. Sunlight will fade all materials, fresh or dry. Once dry, minimal movement is best to prevent shedding or breaking. Sunlight will fade all materials, fresh or dry.
